

Yale Doorman V2N

Remote and full control of the front door.

Yale Doorman Digital Door Lock with unique codes for residents and guests, solves a number of everyday problems, and offers new possibilities to upcoming new services.

Yale Doorman is one of the market leaders in digital door locks suited for Scandinavian exterior doors.

The door lock is a Do-It-Yourself-product for handy people, but you can also get help with the installation from your service provider.

Key features

- With the App, you can give access to your home to others even when you are not at home
- Family members do not have to keep track of keys
- You do not have to bring traditional keys for jogging or walking the dog
- Get notification on who is coming home when you're away
- No worries – You can easily check if the door is locked
- If you have our home alarm installed, you can deactivate the alarm simultaneously as you are locking up your Yale Doorman, using the same pin. You can also activate the house alarm.
- All functionalities in the Yale Doorman are available from the APP, for example the autolock function.

Area of use

Secure and keyless access to your home, holiday home or business.

Included in the safe4 eco-system.

Services

- App push notifications.
- Smart Living Services/In-home delivery if offered by service provider.
- Healthcare services.
- Can be included as part of your alarm system if offered by your service provider.
